

European Broadband Award

Apply and become one of the
**best Gigabit projects
in Europe**

Aim:

Identify and award good practices in planning, management and implementation of High Capacity Networks in Europe.

Who can apply:

All types of projects irrespective of the size, location, or technologies, led by public and private organisations.

How to apply:

Download, fill in and submit the application form available at
<https://ec.europa.eu/digital-single-market/en/european-broadband-award>

What is assessed:

How innovative are applied models of financing, business and investment?
How were the cost reduction measures applied?
What is the impact of the project activities and how affordable are the products?
Have the activities contributed to openness of the access to infrastructure and improved the competition?
What technologies are implemented and how future-proof are they?

Benefits:

The winners will receive an award from the Commissioner for Digital Economy & Society Günther Oettinger at the event "B-DAY: Going Giga" scheduled for 14-15 November 2016. They will also be featured by DG CONNECT in the media, website, newsletters and in the good practice database for projects in high capacity networks.
