

Agenda

Workshop Sustainable livestock grazing management in Mediterranean Europe

16-17 May 2019

Polo de Elvas (Portugal), INIAV
National Institute of Agricultural and Veterinary Research

Organisers:

Rede
Rural
Nacional

The objectives of the workshop are:

- Capitalize knowledge, practices, and experiences of producers to solve needs and thus contribute to the transfer of knowledge related to the sustainable management of grazing and extensive livestock in the Mediterranean and its productive ecosystem.
- Exchange of inspiring practices related to adaptive and holistic management, extensive livestock management, sustainable grazing, and similar practices that address soil problems and other productive resources.
- Creation of networks and facilitation of possible collaborations, mutual support, exchange of advice and alliances.
